# A MESSAGE FROM THE PRINCIPAL

*I would like to thank the staff and students of Sarnia Collegiate Institute and Technical School for making my first year at SCI&TS so memorable!*

*SCI&TS has a tradition of excellence and strong commitment to the development of self-worth in its students. Through a variety of school activities, we have a school spirit to be proud of. I would like to thank the 2000-2001 student body for the energy and enthusiasm that they have shown in the organization of, participation in, and supporting of, the many activities that are part of SCI&TS life.*

*Thank you to the dedicated staff for providing opportunities for our young people. The teachers at SCI&TS inspire dreams, and provide "the tools" to turn those dreams into reality.*

*The Yearbook Staff is to be congratulated for the work they have done to provide staff and students with this wonderful book of memories. It takes a great deal of dedication to put it all together. Thank you!*

*Best of luck to each of you in your future endeavours. Go Blue Bombers!!*

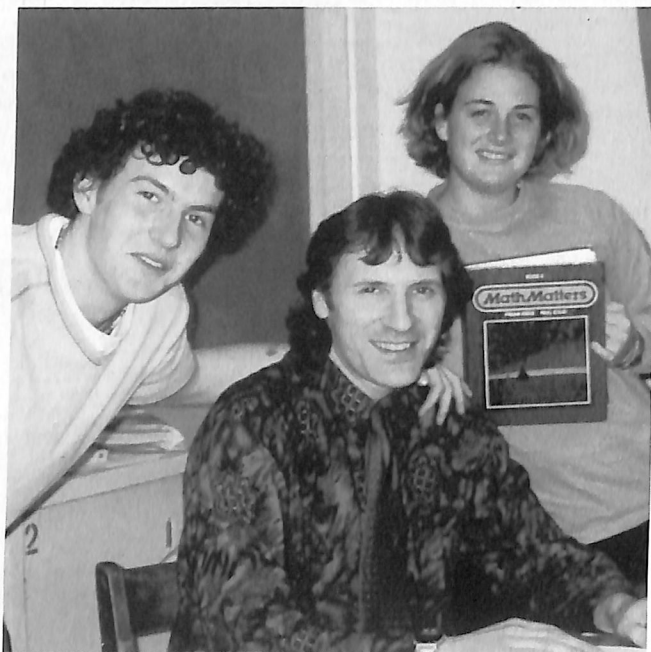

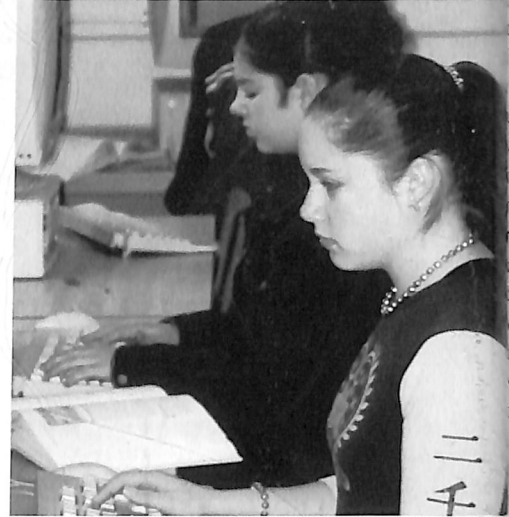

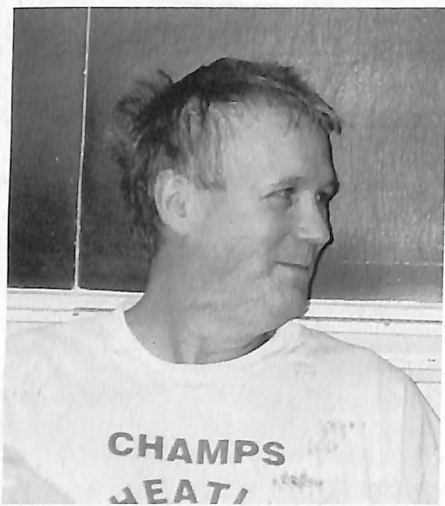

*--Mrs. R. Buchanan*

# Little Bombers

Grade 9! It finally happened! The transition from elementary school to high school is complete! Along with a new school come new friends and new experiences. Here are a few words from some Grade 9s, who share with us what they wish they had known before they got to high school:

"Where the bathrooms are!"  
(**Jason Frederick Hicks**)  
"French!" (**Nick McRae**)  
"Laura Wilson!" (**Katrina Neil**)

"How to be more organized!"  
(**Brooke Caravan**)  
"Kelby Leitch!"  
(**Lindsay de Jonge**)

"That the break between classes is only 5 minutes!" (**Casey Campbell**)  
"A lot more girls!" (**Brian Hansen**)

"That it was so challenging!" (**Mike Gallaway**)

"That the stairs are very trippable!" (**Jaime Perry**)

"To be pushy in the lunch line!" (**Josh Daye**)

"That there were so many people!" (**Alysha Viggers**)

"My way around!" (**Kara Nisbet**)

# Second Time Around

With a year under their belts, the Grade 10s now know the SCITS' traditions, such as Revue and PJ Days. This year when *Welcome Week* rolled around the Grade 10s were excited to be able to watch the new Grade 9s embarrass themselves. But Grade 10s have embarrassing moments too:

*"Running into the wall during Welcome Week!"*

(Pam Evers)

*"I sat in a chair covered in syrup!"* (Brian McNair)

*"I walked into the wrong class!"* (Chantelle Joseph)

*"I slipped on a piece of apple in the Tech hall!"*

(Jayme Kelly)

*"I tripped on the stairs!"*

(Beth de Jonge)

*"I fell running to the bus!"*

(Saralynn White-Ginn)

*"I fell down the stairs and took a couple people with me!"* (Andrew Murray)

*"I was a lunatic in a Dracula play; I had to wear almost nothing!"*

(Dayna Somes)

# Stuck In The Middle

Grade 11! We're moving up in the highschool ranks. Next year the Grade 11's will be the Senior students. The Grade 11's are learning new things and taking more chances. Of course, some of these risks can cause a few Grade 11's to be occasionally late for class. The plan is to have a successful excuse. Here are a few clever excuses that are sure to work:

"Oops!" (**Jason Barnier**)

"I forgot I had class!"  
(**Bryan Jeffery**)

"My sister drove and it was her fault!"  
(**Alex Smith**)

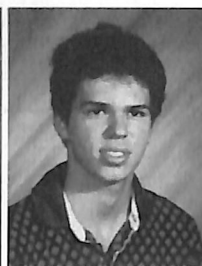

"I don't have an excuse!"  
(**Jonathan Verge**)

"If we were in England, I'd be on time!"  
(**Dave Williams**)

"I was out for lunch!"

# Getting Ready To Fly

Finally it is here, Senior year! Grade 12/OAC is the year we've been waiting for. It seems like not too long ago we were entering the halls of SCITS for the first time. The years have flown by, and gathered within those years is the following advice from senior students:

"Get involved!"  
(Macy LeNeve)

"Go in the SCITS Revue!"  
(Heather Kennedy)

"Get into as many sports as possible!" (Shaun Leitch)

"Don't be mouthy to seniors!" (Amy Wessner)

"Smoking and drinking aren't all that matters!"  
(Jessica Shelley)

"Don't walk around the halls in big groups!"  
(Jackie Whiteman)

"Just be yourself!"  
(Kaylan Hovencamp)

"Don't think you're cool because you have an older sibling!"  
(Mike Shannon)

# Retirees 2001

## **Mr. William Davidson**

has been a teacher at SCITS for a total of 22 years--including a stint from 1974 until 1981. He was born and raised in Sarnia. He has been a teacher for 31 years and has taught at St.Clair, SCITS, NCIVS, and then at SCITS again. He studied at UWO (Western--Purple and Proud) and his areas of specialty are Geography/History. He took his training at Althouse College and his area of teaching is Geography.

Mr. Davidson's plans for retirement include travelling, managing tours, and fishing. What he will miss most about teaching and being at SCITS is the interaction with the young people of a great school. Upon his retirement the "words of wisdom" that he would like to leave the students/staff are : Semper Ubi Sub Ubi. (Always wear your underwear!)

## **Mr. Richard Strang**

has been a teacher at SCITS since 1983--17 years. He was born in Montreal and raised in Ottawa. His teaching career spans 29.5 years. Mr. Strang studied at Carleton University in Ottawa, the University of Toronto, the University of Western Ontario, and his areas of specialty are English Literature and History. He took his teacher training at the University of Toronto and at Western, and his area of teaching is English at all levels.

Upon retirement, Mr. Strang plans to teach English as a Second Language in Cuba and, perhaps, teach a university course as well. He also plans to do more writing. He has already started writing a book about Cuba. He would like to realize his dream of writing a children's book, perhaps, in Spanish.

What Mr. Strang will miss most about teaching is the students. The students have given him his *raison d'etre*. Interacting, learning and laughing with the students is what teaching was all about for Mr. Strang. What he will miss about SCITS are the students and the staff. These people have been his family for 17 years. "I have laughed and I have cried with them. How can I not say I will miss them?"

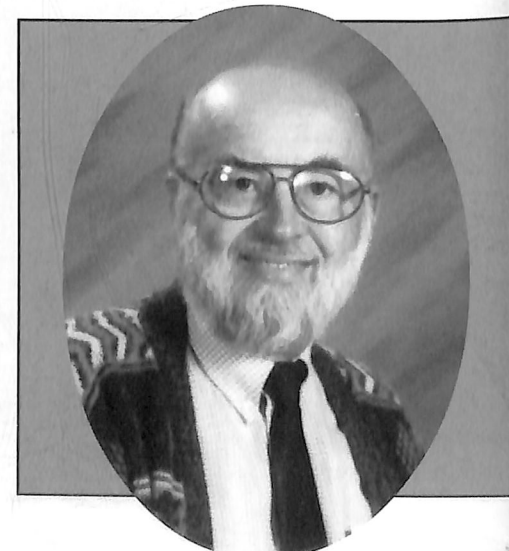

Words of wisdom? "I want to thank the staff and the students, past and present, for making my career as a teacher so fulfilling and rewarding. I have always been proud of my profession. I do and I will always brag to others that it is still the best profession in the world. A student reminded me that 'just because you are retiring, it doesn't mean that you are not still a teacher.'"

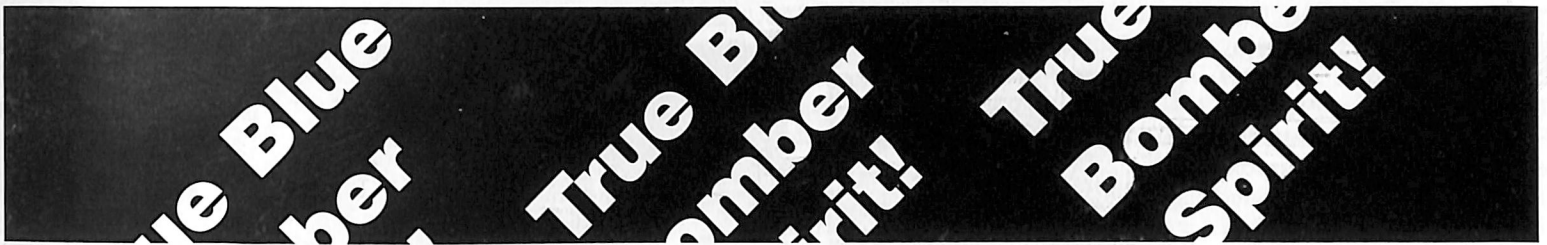

## **Mr. Tom Kendall**

has been at SCITS for 25 years of his 31 years as a teacher. He was born and raised in Windsor, Ontario, and studied at the University of Windsor. His degrees are B.A.Sc and M.A.Sc in Electrical Engineering. He took his teacher training at Althouse; his area of teaching has been mathematics. The first school he taught at was Mungin Secondary School in the northern province of Zambia.

Mr. Kendall's plans for retirement include travelling and gardening. What he will miss about teaching is the students who come for extra help; as well, he will miss the continuity of tradition here at SCITS.

### ***Mrs. Betty Carson***

has been at SCITS for 13 years, and has been a teacher for 31 years. She was born and raised in Toronto and studied at the University of Toronto. Her areas of speciality are English and History. Mrs. Carson took her teacher training at the Faculty of Education, University of Toronto, and her area of teaching is English.

Mrs. Carson's plans for retirement are to winter in a warm climate, golf, play tennis, and spend time with her grandchildren. What she will miss most about teaching and SCITS are the staff and students. SCITS has been a great place to end her teaching career. Mrs. Carson has truly enjoyed her 13 years at SCITS.

---

### ***Mrs. Sandi Boyko***

has been at SCITS for only 3 years and has been a teacher for 20 years. She was born and raised in St. Catharines, and received her Bachelor of Arts from the University of Toronto. Her areas of speciality are Classical Studies and English. She took her teacher training in Toronto and her area of teaching is English. Mrs. Boyko's plans for retirement are possibly a second career, some travelling, and a few hobbies. What she will miss most about teaching and about SCITS is being around so many enthusiastic young people. She would like to leave the students/staff with the thought that SCITS is a great place to work, and a great place to go to school. Be proud of your school !

---

### ***Mrs. Mary Hawkes***

has been teaching at SCITS since 1983. She began her teaching career at Northern Collegiate. Mrs. Hawkes was born and raised in Toronto and moved to Sarnia in 1970. She attended the Ontario College of Education in Toronto for teacher training. Mrs. Hawkes started her career as a business teacher and then moved into Co-op and Student Services.

Travelling is first on Mrs. Hawkes' agenda during her retirement beginning with a trip to Europe. She also looks forward to golfing, playing bridge, and spending time with her grandchildren. It has been such a happy, enjoyable experience at SCITS. The students and the staff have all been very kind and supportive. The positive school spirit is fantastic. That is what Mrs. Hawkes will miss the most.

# COMMENCEMENT

## VALEDICTORY ADDRESS

### Josh Armstrong

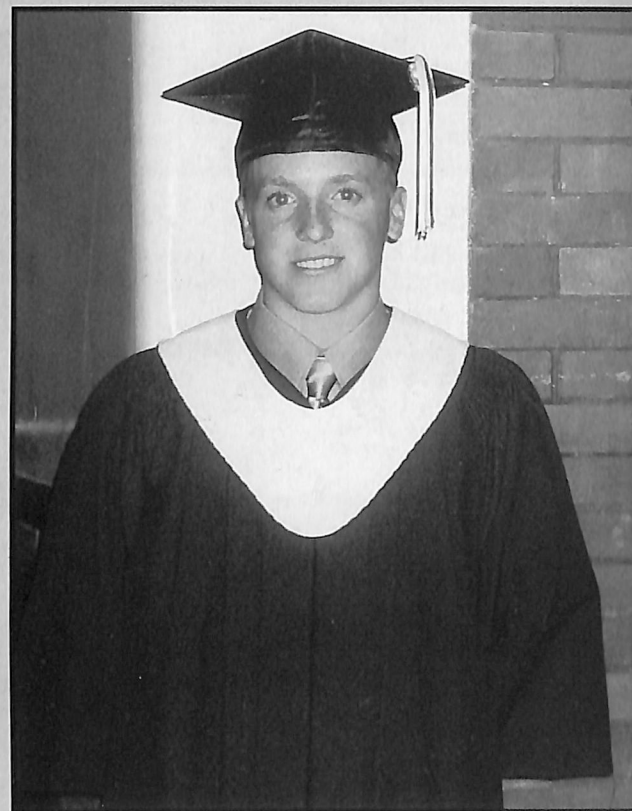

Well, before I begin, I would like to say how good it feels to be back at good old SCI. Standing here before you, the Graduating Class of 2000, I am proud to say that I am your Valedictorian. This is a great honour.

At first, I was not sure if I would be able to accept this offer, but I checked with Ms. Pollock, and I told her I had checked my "schedule" and as long as Commencement was not on a Tuesday, then I would be fine. Now, looking out on all of these familiar faces, I draw many memories. We spent five years of our lives here. I mean, it feels like just yesterday we were in Grade 9. This is a good starting point for my speech.

Ah yes. Grade 9--the step from Grade 8 into the unknown world of high school. It was a complete culture shock for us to go from being the biggest, most-liked, respected, and powerful kids in public school to Minor Niners--nobodies. I recall stepping through the doors of SCITS for the first time--as I'm sure all you do--and being a little scared. Everything was so different--the halls were big, I found it hard to find my way around, the senior students were so intimidating, we had lockers with dif-

ficult combinations, more than one class a day, Mr. White's bald head, and so on. I didn't think I was ever going to get used to it. But, after a little while, I learned to love it. High school was awesome. We could chew gum in class. For us guys there were new girls our age, and for you girls there were older guys for you to hit on. There were new sports like football and hockey that we could play for our school, and great SCI traditions like Homecoming, SCITS Revue, and SCITS Fashion Show. Grade 9 was the beginning of this great ride known as high school. But almost as quickly as it had begun, Grade 9 was over.

Then came Grade 10. With a year under our belts, we grew in confidence. Now there were Grade 9s under us--we had a little power. Grade 10 flew by, and Grade 11 quickly took over. The so-called hardest year in high school, we learned, was not

**TOP:** Josh Armstrong, Valedictorian. **ABOVE:** Happy grads Beth Griffiths, Emily Cadieux, Lesley McBeth, Jill Williams, Nicole Spence, Tara Soeder, Theresa Halliday, and Ruth Shuster congregate in the cafeteria after the ceremony. really that bad. This was also the year of our 75th Anniversary Reunion--which was a lot of fun. Then Grade 11 was gone and we were in Grade 12. We were Seniors now, but we weren't at the very top. We had new advantages like being able to have spares and driving to school and walking out the door of the cafeteria. Grade 12 came and went in a blur and finally OAC had arrived. Now we were at the top echelon. We were now the "big dogs" on campus. We walked through the doors of SCITS on the first day of school calm, confident, and ready. We were ready for anything because we already knew what to expect and what kind of experiences we were capable of having in this great institution. Most of us guys were mature, masculine, modest, young men who could be described the best by the term "stud"--or at least that is what the girls called us. (Actually, this is all in my head. I was never called "stud." Can you believe that after five years I was still just called "cute"? That drives me nuts.) Anyway, the girls also developed into lovely young ladies.

By the end of this OAC year, we had with luck accomplished everything we had wanted to do in high school. By the end of OAC, our five years were up and we were done. We had made it through--our hard work and effort had paid off. But we could not have accomplished all of this were it not for the teachers.

Luckily we were blessed with a school that had a great student/teacher relationship and graciously our teaching staff was the best in the county. No other school found so many teachers and students working equally as hard on extracurricular programs as in the classroom. I think they all deserve to be thanked for everything they have done for us. I'd like to mention all of the great SCITS teachers, but I do not think we have enough time for this, and so I will say it like this: You know who you are.

As I reflect on high school, it occurred to

me that it was not so much all of the classes, tests, and school work that I remember, but rather all of the great memories of this place--all of the times we enjoyed with our friends, teachers, and families during high school. You're not going to remember in 100 years how you scored on a Grade 9 math test. You are going to remember all of the people you met and the experiences you shared with them; whether it was sitting with them at lunch in the cafeteria or in the hall just fooling around, or if it was playing football or basketball with them, or getting involved in the band, or Students' Council or other clubs. All of these extracurricular SCITS' traditions like the Homecoming Game, watching the teachers' famous Canned Food Players, our Christmas Concert, or the SCITS Revue, Fashion Show, or Prom--these are what we hold a place in our hearts for!

The essence of high school was you guys--all of you here tonight whom I came to know and to love. We shared so many fun memories and good experiences together. In fact, I asked some of you your favourite memories of high school:

Ian Yates: Any announcements, public addresses, or talking done by himself, Ian Yates.

Jeff Grant: When some people tipped Silk's trailer at Piggot's party at Prom.

Trish: Ben Douglas

Brian Braekevelt: When Alyssa Becker slipped and broke part of the stage.

Brandon: When there were absolutely no teachers in the cafeteria and so we had a food fight.

Alicia Finlayson: Josh and Ken's All-Star dance of course.

Bobber: When Braekevelt was hypnotized and took his shirt off.

Cadieux: WWF in Grade 11 for us, 10 for him when he got to be Hulk Hogan.

Dallas: When he ran into Shannon Bramham's fence, with a bike helmet on, in Grade 10, saying "I'm a power fullback."

Kenny B. Josh Kennedy doing Goat Boy, Raptor.

This sums up the past for us guys, and now it is time to look at the Present. We're back in Grade 9 again. We're at the bottom of the ladder, but the good thing is--the only place to go is up. We're the little guys on campus; everything seems so big and foreign to us. Bigger building, new professors, new faces. It's a brand new game--this life after high school. Now that most of us are on our own at new schools, we have new responsibilities and new temptations that we have to deal with. For example, we have to wake ourselves up for school. Our mommies are not there to get us up, but they are also not here to nag us. (Just kidding, mom. I love you!) Most of us are paying for our education now, and this is a huge responsibility. Along with these responsibilities, we have big choices to make, such as our friends, the food we eat, whether or not to sleep or study or party, whether or not to set time apart to make out--I mean work out--you know, keep our bodies in shape. For some of us, it is a chance to start over. To do things right or create a new identity--turn over a new leaf. We have to daily live our lives as big boys and girls because the work we put into life now and the decisions we make will greatly affect our future. Life is hard on your own, but it can also be fun.

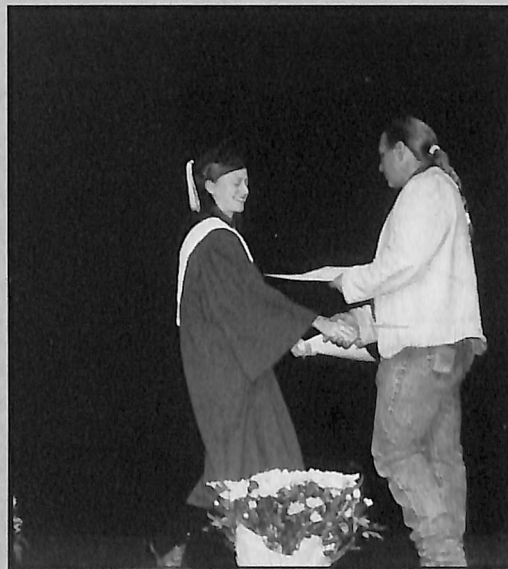

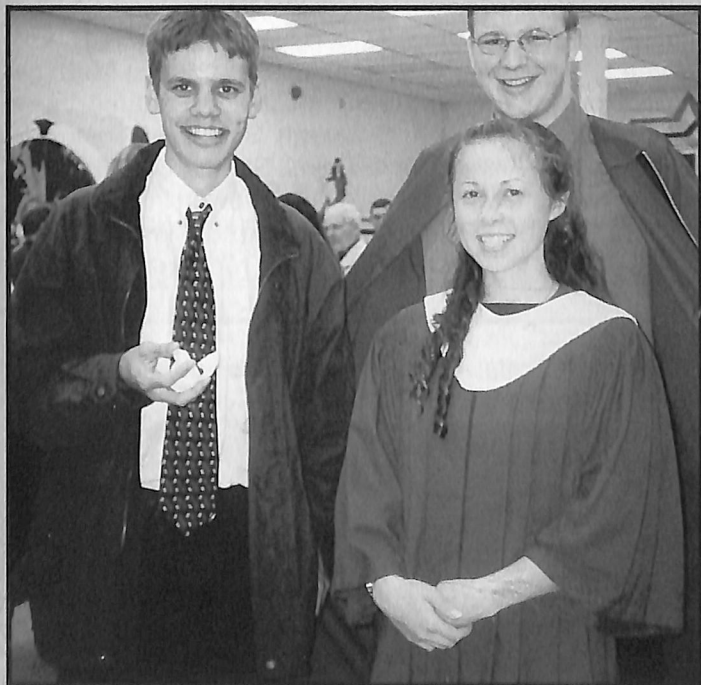

For example, there are some great advantages to being in College or University: You can wear a hat in class. You can leave the class or not show up without an excuse. Come home as late as you want. Eat pizza for breakfast. Sleep in some days because you do not have class. Play varsity sports. Get all the chicks. But our main goal in College or University should be to prepare for our futures.

Yes we are on the edge of our future. Everything we do now counts. Any indulgences we take part in will have an effect on our lives. Now, I am

not saying do not have fun. Instead, I encourage you to have a great time. But balance your life between the good times, your schoolwork, exercise and faith. We have been taught within these halls to work hard and rewards will follow. Well, now is the time to accelerate these habits and hold on to what is true and good. Remember your past; it helps to mold your future. And be bold; step out into this world with confidence and take on every challenge you face without fear. We can do anything we put our minds to especially when the future is in God's hands. Be ready for Action! And in the illustrious words of my new defensive football coach: "We are what we repeatedly do. Therefore,

excellence is not an act, but a habit."

As class of 2000, I would like to challenge you to be the best people you can be. Enjoy what you have--youth and opportunity--and use it to your greatest advantage. May God bless you all. You have been a great audience. Have a stellar future. Thank you very much. SCI Football Rules!

The competitors who placed in LSSAA and went on were: **Andy Ysebaert** (3rd Discus, 4th Shot-Put), **Angela Melhuish** (2nd Highjump), **Doug Jones** (3rd Javelin), **Natalie Armstrong** (3rd Discus), **Laura Wilson** (5th Shot-Put), and **Laura Aberhart** (5th Javelin).

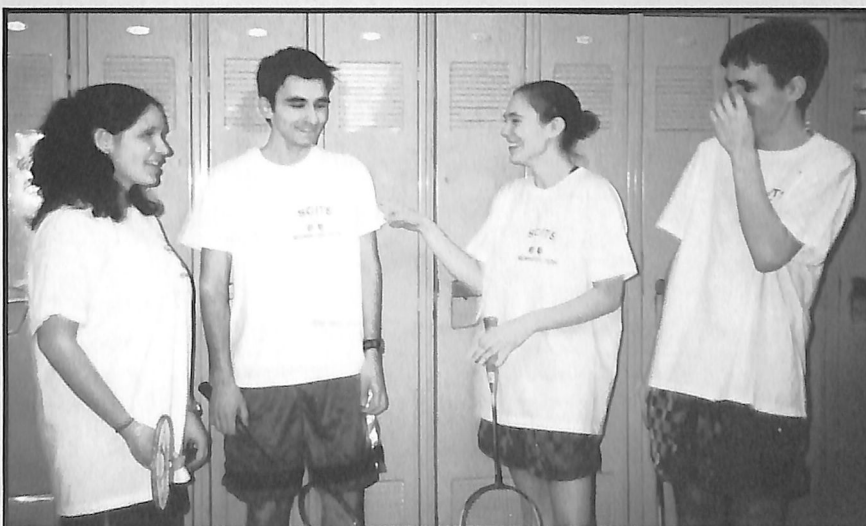

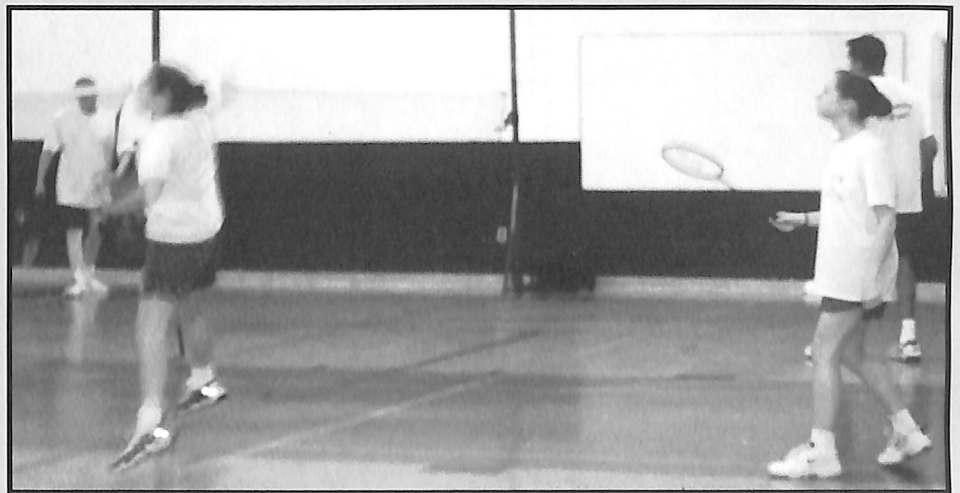

*It was a very short badminton season for the Bombers. A convenor couldn't be found, so all inter-school games were cancelled. Luckily, a coach from Northern, along with two senior players, stepped up and put together the LSSAA tournament at the end of April. Although none of the schools had more than a week to hold practices, the competition went very smoothly. Three SCITS teams even made it to the SWOSSA level in Windsor. These athletes were: **Miranda and Audrey Restorick** (2nd--Senior Girls' Doubles), **Natalie Armstrong** (3rd--Senior Girls' Singles), and **Beth Fraser** (3rd--Midget Girls' Singles).*

Peer tutoring is a program designed to help Grade 9 and 10 students build study skills and improve time management.

Senior students with a spare donate one block per week to the program and work either one-on-one or in small groups with their tutees. Volunteers can earn up to **ten points** towards their **School Letter**.

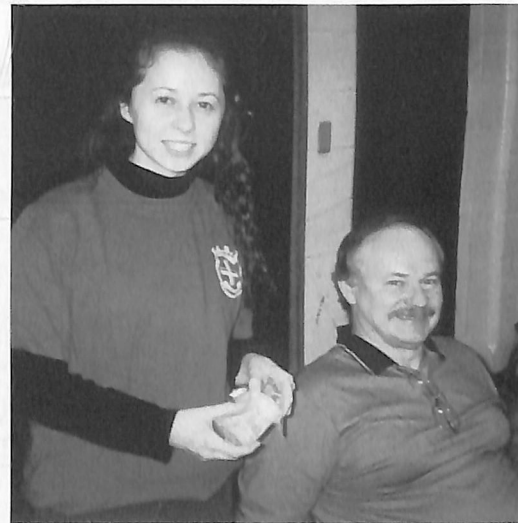

# F.A.S.T.

## First Aid Students' Team

*The First Aid Team is relatively new--this was only its second year as a club at our school. It was formed last year under the direction of OAC students Ruth Shuster, Amanda Smith, and Beth Griffith. It consists of certified lifeguards and first-aiders who provide first-aid treatment around the school and at extracurricular activities. The club was originally called the First Aid Response Team, but the acronym for this name--F.A.R.T.--was not allowed to be printed on the squads' t-shirts. With a little brainstorming, Ruth, Amanda, and Beth came up with the club's new name: First Aid Students' Team.*

## **Life's Space at a Young Age**

Tight, so tight; my space enclosed  
As mother rolls on her side  
Her water breaks, noise ensues  
Bright lights, cold hands as mom opens wide  
A baby boy is always good news

Definitely more room in the cradle  
My space has grown  
Then my own bed, talking a streak  
In my darkened room, scared of noises unknown  
But ready to dominate the rest of the meek

Finally, at school, loving my space  
Away from the parents most of the day  
Walking, past strange people, houses and stores  
Listening to my teacher and schoolyard play  
Physically and mentally preparing to open life's doors

In high school now, my space immense  
Having my licence means the world is mine  
Boundaries, curfews, eliminated  
Girlfriends to wine and dine  
Space is conquered and all fears vacated

# 2001:

## A SCITS A SCITS ODYSSEY ODYSSEY

"There will be no Revue this year." Mr. White's words drew cries of dismay from the senior and junior students sitting in the auditorium. Because of the work-to-rule policy implemented in the fall, our SCITS Revue--an annual variety show staged by the student body--would not be able to go on. For all of the students who have participated in the show in the past, or maybe planned to sing, or dance, or act, in this year's production, this news was a shock--and not to be taken lightly.

Fortunately, the show did go on. Dancers practiced their routines months in advance, skits were written, and just before the exam break in January, Mr. White called another meeting--the Revue was back on!

Whether students and teachers took part in the show by helping out behind the scenes, selling tickets, watching from the audience, or actually performing on stage, the Revue was definitely a worthwhile experience for them all. Not only was it entertaining, but it also instilled a bit of SCITS pride in all of them. Way to go, Bombers!

Ten students from SCI (accompanied by a few friends) had an experience of a lifetime over the March Break in Spain. They travelled to places such as Madrid, Segovia, Toledo, Sevilla, Granada, and Torremolinas, the sunny coast of Spain. In Madrid, they learned what "night life" really means, and in Segovia they visited an aquaduct and a medieval castle. Holy Toledo! The students got their fill of churches and museums. They were cultured by day, but as soon as the sun set, it was time to relax and dance the night away at the "discoteca." They learned to have fun Spanish style--LIVING LA VIDA LOCA!

# WASHINGTON

## History Students Toured

On March 28-30, 2001, 66 Grades 11-OAC history students travelled to Gettysburg, PA, and Washington, DC, for 3 action-packed days. They were accompanied by Mr. Garrett, Mrs. Girard, and her son, Tyler, Ms. Pollock, and Mr. Peter Sparks. Destinations included Arlington Cemetery, Mount Vernon (home of George Washington), and the U.S. Capitol, the White House, the new Canadian Embassy, and Ford's Theatre. Students were able to watch the Senate debate on campaign finance and did "cultural" research at a large outlet mall. After 2 days of walking up to 12 hours and an overnight bus trip, students returned home tired, but crammed full of new information and exciting experiences.

# Southern Ontario Model United Nations Assembly

**TOP:** Audrey Restorick, John Wyville, and Laura Walker wish Mr. Robillard could have come too. **MIDDLE LEFT:** SCITS was represented very well at SOMA XXIX. Each delegation (Uganda, Ghana, and Somalia) had three delegates. **Back:** Allison Millar, Carrie Simmons, Audrey Restorick, Jacob Neal, Andrea Gall, and John Wyville. **Front:** Laura Walker, Jessica Robinson, and Mr. Lynch (staff advisor). **Missing:** Scheana Lasenby. **MIDDLE RIGHT:** Carrie Simmons adjusting her glasses. My, what an attractive look! **BOTTOM:** Jessica Robinson and Mr. Lynch can't get away from discussing politics, even at the dinner table.

**SOMA** (Southern Ontario Model United Nations) was held at the University of Toronto between the days of April 18 to April 21. Students from across Canada and the United States gathered together to debate issues of actual UN importance. Each participant came to the conference as part of a delegation representing a country. Delegates attended sessions that addressed themes such as science and technology, culture, the environment, and criminal justice, and were able to cast mock votes for the resolutions they did or didn't want passed. On the final day of the conference, after the last assembly, a banquet was held for all of the delegates at the Westin Harbour Castle. Awards were presented to the best delegations. Anyone who likes to meet new people, debate interesting topics, or just sit back and learn more about what goes on in the real world shouldn't hesitate to sign up for the next SOMA trip.

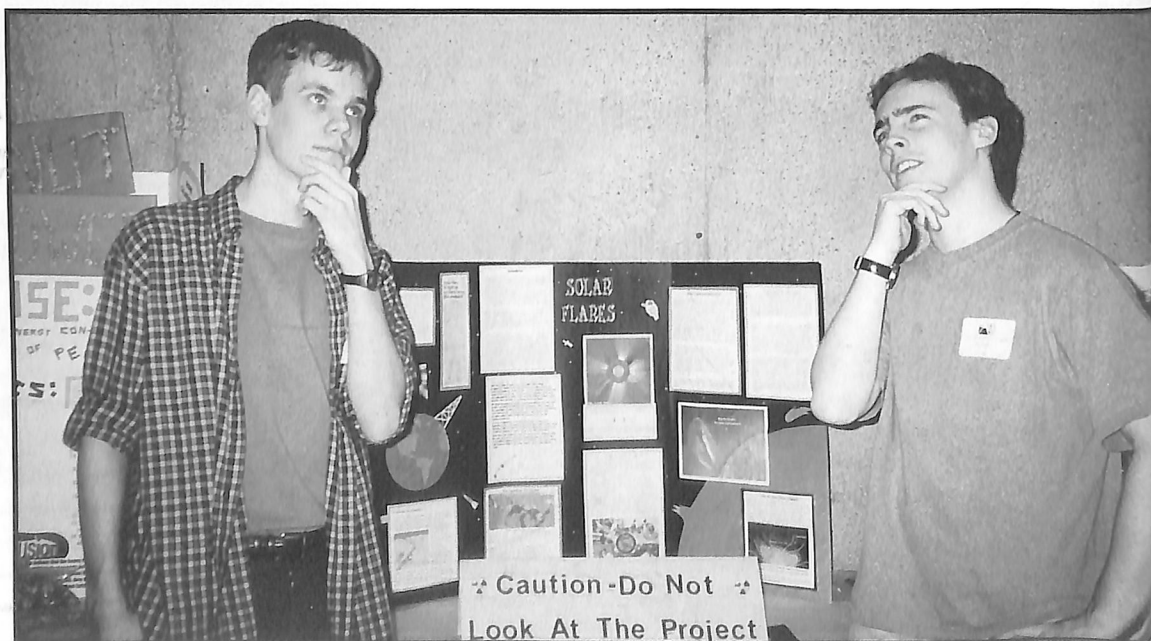

# SCIENCE FAIR

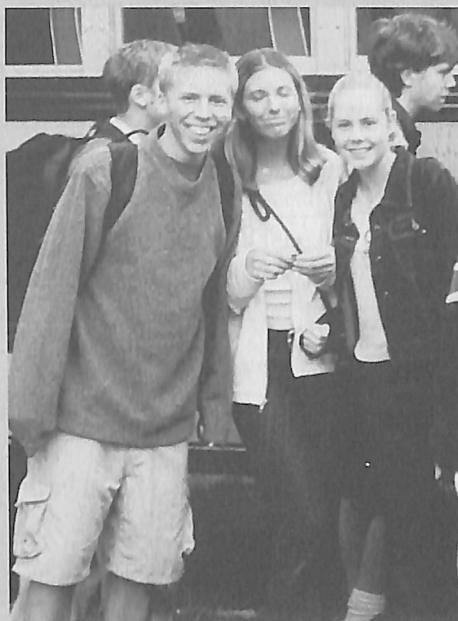

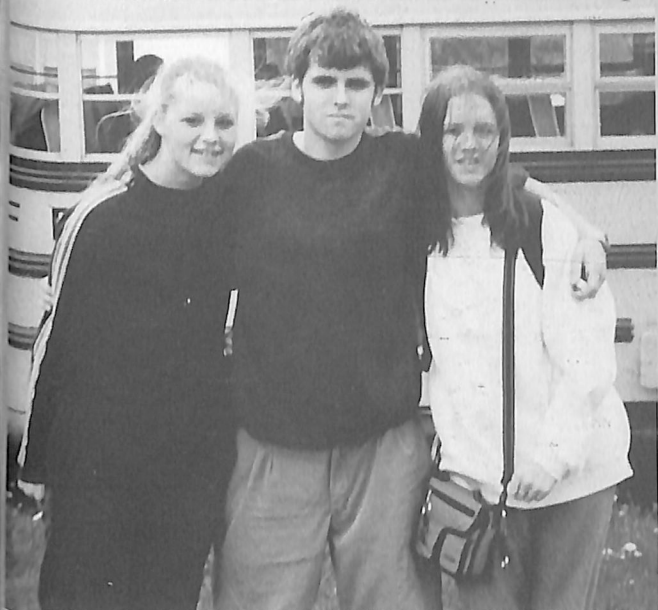

**TOP:** Audrey Restorick and Miranda Restorick with their project, *Paper-Aerodynamics: Why Do Planes Fly?* They tested paper airplanes and tried to determine which design was the most aerodynamic by evaluating factors such as speed, time spent in air, and straightest flight. They came up with some pretty interesting results! **MIDDLE:** Krista Griffin and Billy Gould won third place in the Senior Physical Science division with their project entitled, *Peanut Power*. They built a calorimeter and lit plain, redskin, and candy-coated peanuts to measure the amount of energy contained in each nut. Even *they* were surprised at what they found out! **BOTTOM:** Kyler Brouwer and Gord Spence pondering the wonders of the universe. Their project on sun flares shone new light onto a hot topic of the solar system.

# The Future is Yours

**TOP LEFT:** Amanda Punch, Brandon Broumpton, and Trista Morgan wait for their bus on Crawford St.

**TOP RIGHT:** Jacob Schieman, Andrea Labarre, and Janlyn Greenslade let the pushier students crowd their way onto the bus first.

**MIDDLE LEFT:** Becky Duncan and Taryn Henry would rather sit than stand while looking for Nancy (their busdriver) to pull up.

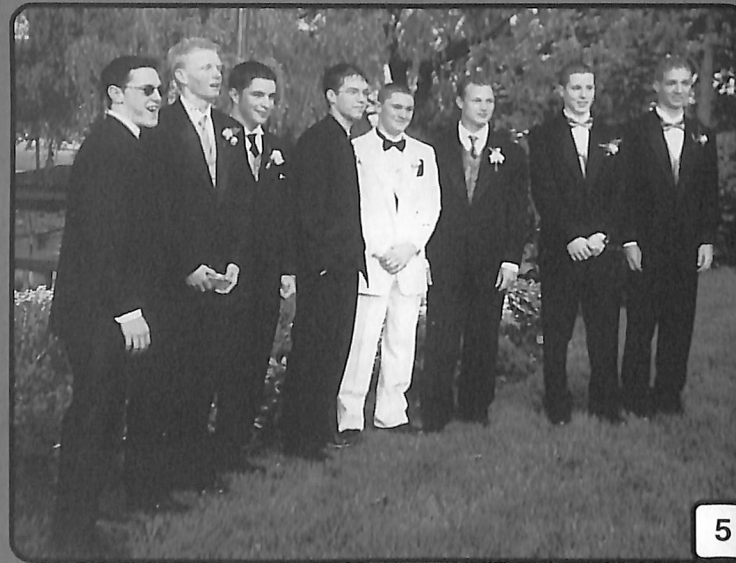

**MIDDLE RIGHT:** Brooke Hartley, Amber Poirier, and Sarah Spanton pass their time at the bus stop talking things other than school.

**BOTTOM LEFT:** Myrissa Kendall and Carleigh Dease are getting hot waiting for the Point Edward bus to arrive.

**BOTTOM RIGHT:** Shannon Edwards and Bethany Purdy just want their bus to come so they can go home for the weekend.
